SUMMARY

As a recent computer science graduate, I'm eager to dive into the technology sector with a strong foundation in data structures, algorithms, and software engineering. My passion lies in game design and development, where I've honed my skills through coursework in interactive prototyping and the study of user experience principles. I'm eager to collaborate with experienced professionals and draw on my valuable internship at Zhejiang Supor Co., Ltd.'s Information Technology Department in 2020 to hone my problem-solving skills and contribute to innovative projects.

EDUCATION

Sep 2018– April 2023 University of Windsor Computer Science   Bachelor

- Coursework including Obj-Orientd Progrmg Using Java, Data Structures & Algorithms, Operating Systems, Computer Networks, Software Anal/Des, Database Mangement, Game Design, Dev & Tools, Soc Media&Mobile Tech-End Users, Project Mgmt: Techniques&Tools, Artificial Intell, Dsgn&Anlys of Comp Algorithms
- Modules Included: Economics, Mathematics, Computer Science and Statistics

INTERNSHIP

May 2020– July 2020   **Zhejiang Supor Co., Ltd IT Department**

- Network Configuration: actively participated in creating and configuring network cables.
- Net Cloud/Online Cloud Design: was involved in the design of online cloud solutions.
- 127th Canton Fair: provided support by assisting with filming, recording, and collaborating with other technical staff.
- Document Research: conducted thorough research on relevant documents and information.
- Technical Support: Providing user support to troubleshoot issues with computer hardware and software.
- Network Management: Managing and maintaining the organization's network infrastructure, including routers, switches, firewalls to ensure network security and stability.
- Email and Communication: Managing communication tools to ensure effective communication and collaboration among employees.

SKILLS & INTERES

Languages: English & Mandarin (Native)

IT Skills: proficient in Microsoft Office, Git, MySQL, Data Structures, Database Management, UI, Python, Unity, JavaScript, Computer Networking, Web Design, Video Editing

Interest: Traveling; Snowboarding, Photography, Badminton, Video gaming
